

THE GRILL BUYER'S CHECKLIST

Where's It Made?

When it comes to grills, "Made In the USA" doesn't have to mean "expensive". At Fireside, we have made-in-the-USA grills for every budget.

What's the Warranty Like?

Did you know that grill warranties do not cover labor? That's OK though – because Fireside does! If you run into a problem with a grill purchased at Fireside, our Full 1-year Warranty covers both labor & materials.

Is There a Satisfaction Guarantee?

At Fireside, the answer is, "Yes." In fact, we offer a 90-day, 100% satisfaction guarantee with every grill we sell...try finding that at your friendly Big Box store!

Can You Meet Big Box Prices?

Yes – you'll find our cash & carry grill prices are the same as what you'll find at Big Box stores.

Can You Hook Me Up?

Unlike the other retail stores, Fireside is certified by the Oregon State Fire Marshal's Office for assembling and servicing propane appliances. Plus, our gas technicians are well equipped to install & service both propane & natural gas grills.

What Features Do I Really Need?

At Fireside, we'll answer that question, with a question of our own: "What do you like to grill?" The seasoned grill aficionados on our sales floor will then help you make decisions on the grill that will suit you the best.

Here are just a few of the available features to consider:

- **Sear stations:** These can't be beat for grilling steaks and is superior to infrared burners, but you have to know how to use it.
- **Infrared rear burner & rotisserie:** Perfect for roasts, but you have to learn how they work.
- **Side burners:** They're great for more than boiling corn.
- **Portables vs. Built-ins:** Each has its advantages and disadvantages.
- **Outdoor kitchen accessory pieces:** Outdoor bars, outdoor refrigerators, and other pieces, what's right for you?
